

Eubanks

No. 6840 COLLECTOR TUBE

This Collector Tube is used to collect short wire lengths. It includes a 36 in (914mm) length of 2 in (51mm) diameter plastic tubing and two plastic end caps along with hardware for mounting the tubing on the downstream side of the Eubanks Wire Processor. The tubing may be cut to a handheld length or any desired length with scissors. Additional 36" lengths of tubing may be ordered as Part No. 6933. The caps are supplied in pairs as Part No. 6934. The tubes with caps on each end provide a convenient way to catch and collect processed wires.

SPECIFICATIONS

TUBE LENGTH	36 in (914mm)
TUBE OUTSIDE DIAMETER	2 in (51mm)
