

Eubanks

ALL STEEL MACHINE TABLES

12 gauge steel, all welded machine tables have a 3000 lb capacity. A lower shelf can accommodate a storage toolbox of choice. Each table has a height of 32 in and a depth of 24 in. The 24-inch depth provides plenty of work space when changing tooling setups on your Eubanks stripper. Additional tables can be set side-by-side to accommodate all Eubanks systems and any additional desired workspace. Steel tables can be grounded and anchored to the floor and can also be made mobile by installing casters.
